

## Part 5: Proof Cheese Pizza is Pedophile Code

Someone went into the dark web to find proof of Pizza Gate codes. Dark web is used by pedophiles so they can't get caught by police. Because NSA can't track them down on dark web aka Tor browser. It turns out that filthy pedophiles do use cheese pizza as a code word for child pornography.

Above was sent to RealityCalls on youtube. You see the code word "Cheese Pizza." This was from a thread on a dark web forum. Same code appears in Podesta emails and in email from Obama.

"hotdog" = boy  
"pizza" = girl  
"cheese" = little girl  
"pasta" = little boy  
"ice cream" = male prostitute  
"walnut" = person of colour  
"map" = semen  
"sauce" = orgy

These codes for pizza gate are known because some researches went into the dark web and found these codes on pedophile websites. Avoid going to these websites because they are disgusting and evil.

The next three months are going to be rougher internally than in Beijing. Between 7th and 1600, no fun. Hope you're doing ok. I'm dreaming about your hotdog stand in Hawaii...

This alone is strange. You don't get a pizza for an hour. This is clearly code. As seen in pedophile post on page 1 this shows that Pizza and cheese pizza are code for something. Pizza is also code as seen in post on page 1.

This is more proof of Pizza Gate.
